NEW YORK TELEPHONE COMPANY

5
SUMMER
1932

GENERAL INFORMATION

Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Postal Telegraph-Cable Company or the Western Union Telegraph Company. The telegraph charges will appear on your monthly telephone bill.

You may also telephone your telegrams from public and semi-public coin box telephones and deposit the charges for such messages in the coin box.

When calling either of these telegraph companies follow the instructions shown under its listing in this directory.

Overtime Charges

Although it is not the Company's general practice to time all calls from message rate telephones on which the initial period charge is one local message, overtime charges will be applied wherever such calls are found materially to exceed five minutes in duration.

Time-of-Day Information

To obtain the correct time Call or Dial ME ridian 7-1212. This information is available at any time of the day or night and is provided as an accommodation at a small charge as follows:

One local message will be charged message rate subscribers.

Five cents will be charged flat rate subscribers and coin box and public telephone users.

Free Calls

s from any telephone in New York ay be made to any department of elephone Company in the City and ban area without charge, excepting to the Time-of-Day Information artment, ME ridian 7-1212.

n any free call made from a coin box station, the coin deposited in order to call the operator will be returned.

Teletypewriter Service

Typing by wire is offered for any number of minutes and to any city in the United States. Subscribers to this service can typewrite by wire instantly to each other at any time. The service provides two-way communication with a speed of connection comparable to telephone service. One or more copies may be produced simultaneously by both sending and receiving machines and the material may be recorded on forms if desired. Teletypewriters can be operated by anyone who can operate a typewriter. For further information, ask the operator for "Business Office" or dial 811.

Exhibiting Telephone Numbers

If you display your telephone number on stationery, vehicles, or in other ways, it is important that it be kept currently correct. Changes may become necessary from time to time, and failure to make corrections may affect your service as well as the service of those who desire to call you.

Errors in Directories

Every effort is made to make the directory as accurate as possible. Sometimes despite the care and attention given it, errors will creep in. Please check your listing and if it is incorrect, call the Business Office promptly.

The Company assumes no liability for damages arising from errors or omissions in the making up or printing of its directories, except in the case of charge listings in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues.

Identification of Employees

Every employee of the Telephone Company authorized to inspect, repair or remove the Company's apparatus carries a metal badge showing the Company's name and his own number. Subscribers are earnestly requested to refuse access to their premises to anyone who cannot in this way identify himself.

Attachments

The Company's tariff provides that no apparatus or appliance not furnished by the Company shall be attached to or used in connection with its facilities. Telephone instruments are designed to produce the best results. Many of the unauthorized devices offered for sale, which are claimed to improve the service, get the telephone lines and instruments out of order and, to protect its service, the Company will be compelled to remove any such device. Where ordinary apparatus does not adequately meet a particular set of conditions, special equipment will be furnished by the Company at reasonable rates.

Telephone directories containing the listings of subscribers within a specified area issued from time to time by the Company are and remain the property of the Company. They shall not be mutilated and shall be surrendered to the carrier who delivers the subsequent issue.

No foreign or privately owned binder, holder or auxiliary cover bearing advertisements shall be used in connection with any telephone directory furnished by the Company.

Injuring Telephone Property

A person who wilfully or maliciously displaces, removes, injures, or destroys a line of telegraph or telephone, wire or cable, pier or abutment, or the material or property belonging thereto, without lawful authority, or who shall unlawfully and wilfully cut, break, tap, or make connection with any telegraph or telephone line, wire, cable or instrument, or read or copy in any unauthorized manner any message, communication or report passing over it, in this state; or who shall wilfully prevent, obstruct or delay, by any means or contrivance whatsoever the sending, transmission, conveyance or delivery, in this state of any authorized message, communication or report by or through any telegraph or telephone line, wire or cable, under the control of any telegraph or telephone company doing business in this state; or who shall aid, agree with, employ or conspire with any person or persons to unlawfully do, or permit or cause to be done, any of the acts hereinbefore mentioned, or who shall occupy, use a line, or shall knowingly permit another to occupy, use a fine, a room, table, establishment or apparatus to unlawfully do or cause to be done any of the acts hereinbefore mentioned, * * * is punishable by imprisonment for not more than two years. —Extract from Section 1423 of the Penal Law.

Privacy of Telephone Service

A person who wrongfully obtains, or attempts to obtain, any knowledge of a telegraphic or telephonic message by connivance with a clerk, operator, messenger or other employee of a telegraph or telephone company, or being such clerk, operator, messenger or other employee, wilfully divulges to anyone but the persons for whom it was intended, the contents or the nature thereof of a telegraphic or telephonic message or dispatch intrusted to him for the transmission or delivery, or of which contents he may in any manner become possessed, * * * is punishable by a fine of not more than one thousand dollars or by imprisonment for not more than two years, or by both such fine and imprisonment.

Extract from Section 552 of the Penal Law, Chapter 40 of the Consolidated Laws.

BUILD BUSINESS
with the
Address Telephone Directory

Here is a street address directory having a multitude of uses in practically every kind and type of business.

All telephone subscribers—business and residence—are listed consecutively by street and number. (See part of a typical page below.) Business subscribers are definitely distinguished from residence subscribers and the nature of their business clearly indicated.

This directory contains all your worthwhile customers and prospective customers—and is accurate and up to date. Sales departments use it for canvassing, for telephone and direct mail campaigns, etc. Other departments, such as credit, addressing and mailing, delivery and shipping find it helpful for checking names, addresses, telephone numbers—thus eliminating errors, saving time and money.

These directories are available for Brooklyn, Queens, Staten Island, Manhattan, The Bronx, and Westchester.

Some Uses

1. To solicit new business by mail.
2. Department stores and similar concerns with large volume of incoming telephone calls often find it easier to get correct addresses rather than names over the telephone. With the new directory it is easy to "look up" a name.
3. Loan companies and collection agencies use it for obtaining addresses of those who have moved, by calling a nearby address.
4. Real estate men get in touch with property owners and prospective clients.
5. Neighborhood stores find it an aid to advertising in their immediate vicinity.
6. It helps in preparing and checking direct mail lists up to date.
7. It provides a ready list for calling to prospects in a given area.
8. It permits advertising to select certain sections of the city for direct mail effort.
9. Stores find delivery routes easy to lay out by using it.
10. Bankers and brokers find it helpful beforehand on delivery of salable securities. Credit houses call neighborhoods for references.
11. Automobile Agencies find a record of registrations with it helpful in keeping them informed of sales in a given locality.
